## MARION'S OPPORTUNITY

The City and County Alike Will be Benefitted by the Work of

### OUR NEW COMMERCIAL CLUB

A few of the citizens of this city last Saturday night to organize a Commercial Club, the purpose of which should be to advance the welfare of this city and county by fostering enterprises and improving them. At the meeting Saturday night the president, two vice-presidents, the secretary and treasurer of the club were chosen. At that meeting it was ordered that a committee, appointed for the purpose of arranging articles of incorporation and by-laws, should meet and be ready to report Tuesday night, which was another special meeting to further organize. The interest in the contemplated club grew rapidly and Tuesday night there was a splendid and enthusiastic gathering of some of the best business men of the city, ready to assist in the club movement and to further organization.

At the meeting directors were chosen, who by virtue of their position should serve as the heads of the various committees. The report of a special committee on articles of incorporation and by-laws was made.

A special meeting will be held next Tuesday evening, when the members of the various committees will be announced. The following letters will further explain the club being done.

This city and county is now facing an opportunity which has come but a very few among the municipalities of counties in the various states and territories comprising the United States, as we have with our borders mineral deposits vast in amount and rich in possibilities. Such is claimed by all of the mining experts who have visited this district and these mineral deposits undoubtedly offer extraordinary inducements of profitable investment for the purpose of their development.

But few conditions are now lacking to make this district an ideal center for mining operations on an extensive scale, but that these conditions hamper, if they do not altogether block progress in the development of Crittenden county's mineral resources, can not be denied by any one who is fully conversant with the facts, their most urgent requirements are: good roads, then railroads, for the development of the county, and waterworks, then fire protection, for the city. Other improvements and advantages will quickly follow.

To offset or minimize these handicaps to our progress, and then to produce a remedial effect, a Commercial Club has been organized by Marion's progressive citizens, its officers and its precepts have been wisely and indiscriminately chosen; its purposes should now be set forth and so clearly defined to the people that all who desire to aid and participate in the progress of the community may readily see that it will be beneficial to their interest and mutual benefit to either identify themselves directly with the movement or to cooperate with the club in their endeavor to accomplish the several important purposes for which they have organized.

Any one of the purposes of the organization, as previously mentioned, is worthy of the best efforts of a Business Men's Club, and should enlist the services of the public-spirited residents of the city and county. Therefore, there need be little wonder at the enthusiasm with which the movement has caused, or the zeal of its large and rapidly increasing membership, when there are so many good objects for accomplishment.

To make an extended review of the constitution and by-laws adopted by the club is beyond the scope of this article, but the officers and directors chosen, as well as the committees and assignments, are as follows:

Thomas H. Cochran, President;

T. Melison Frazer, First Vice-President; Robert I. Num, Second Vice-President; James E. Crittenden, Secretary; George M. Crider, Treasurer.

Directors—C. E. Weldon, chairman Finance and Membership committee; H. H. Sayre, chairman Entertainment, Arrangement and Building committee; J. M. Freeman, chairman City Development committee; C. S. Num, chairman County Development committee; C. H. Whitehouse, chairman Press, Publicity and Promotion committee; Chas. Evans, chairman Public Policy committee.

Dr. Frazer, 1st vice-pres., was assigned chairman of the committee on Ordinance and Resolutions by the president, and Mr. R. I. Num, 2nd vice-pres., was assigned chairman of the committee on Mercantile, Manufacturing and Mining.

Judging from the present make-up of the club—that is its officers and membership, its constitution and by-laws—its efforts will be directed into channels which will secure to all people alike many of the advantages which they desire to enjoy, with special favor to no class or kind, provided the club has the hearty cooperation of all those who will be affected by the needed improvements.

It should be understood from the start that the club has been organized as much for the benefit of Crittenden county as for Marion, and that it desires to secure among its membership as many as possible of the representative men located throughout the county. As soon as they can be interested sufficiently to work in harmony with the club, and endorse and strengthen its efforts, then one feature of its work—good roads—will be easy of accomplishment. To secure good, rock ballasted roadbeds throughout the county would doubtless benefit a greater number of people, both in the county and city, than any other one movement which the club has endorsed and set about to accomplish.

Take a young man or young woman who has reached the point where it becomes essential or necessary to choose a life vocation and upon which choice depends so largely their success or failure to achieve fame and fortune, happiness or any of the desirable objects in life, so Marion and Crittenden county have reached this parting of the ways—an epoch of vast importance which should not be lightly passed by.

The difference between the two extremes of success or failure may be said to consist in the ability or inability of men or women, or of districts, towns, cities or nations, to see and grasp an opportunity then presented, as upon each important event in any career rests to a very great degree subsequent opportunity and action.

Lack of opportunity can hardly be said to account for the condition or circumstances of any man, or of any community, town, city or nation, for even the desert may be made to bloom if the proper effort and energy is expended to that end.

C. H. Whitehouse, Chairman.

Editor CRITTENDEN RECORD,  
Marion, Ky.

Dear Sir:

In view of the fact that a Commercial Club has been recently organized for the benefit of our city and county, I believe it may be of interest to some of your readers to outline briefly some of the benefits that will result from such an organization.

It is unnecessary, beyond the mere statement of the fact, to say that with organized effort almost anything is possible, and without it practically nothing.

It follows then that if our citizens will take hold of this movement and work together as one man, all those things we have long desired but seem very unlikely, under present conditions to attain will become realities. Good roads, paved sidewalks, water works, new industries and best of all a happy, industrious and prosperous city are ours. These will all be ours if we will forge our little differences of opinion and all strive for the greatest good to the greatest number.

Yours very truly,  
H. H. SAYRE.

## WEDDINGS GALORE!

The Entire Community Seems Stricken With a Matrimonial Epidemic.

### ATTRIBUTED TO LEAP-YEAR.

Roy Gilbert, who for some time has been the popular salesman in Gilbert & Hicklin's grocery, and Miss Edna Moore, the attractive and popular daughter of Mrs. R. A. Moore, were united in marriage Wednesday evening at the bride's home. Rev. J. R. McAfee officiated. While it was expected that this couple would marry soon, their plans had been kept a secret and Wednesday evening when they entered the opera house it would have been a little surprised for their closest friends had it then been announced that they were married. The bride and groom were both born and reared here and belong to the most popular circles. Thursday afternoon a concourse of their friends prepared a gift-shower party and besieged them, each leaving a blessing.

The pathway of this happy couple leads fair to receive its share of roses and for one, the Record drops therein its best wishes.

#### Vinson-Coleman.

Tom Vinson and Miss Ada Coleman, of Creswell, were here Tuesday night on their way to Elizabethtown, Ill., to get married. They were accompanied by Monroe Coleman and Miss Lizzie Vinson, another young couple of Creswell. The party arrived here at 7 o'clock and were immediately driven to Elizabethtown, where the ceremony was performed. Returning they reached here about 1:30 a. m., Wednesday, and about two o'clock they took their departure for Creswell.

The afternoon before the runaway the groom had asked the girl's father for his consent to the marriage, but it was withheld, whereupon the young man informed the parent that he would steal the girl. The mother being away on a visit, the father at once left to inform her of the situation and to have her return that a runaway might be prevented. Being equal to the emergency, and on the alert, the young couple took French leave during the absence of the father, and after being married they returned to the old folks at home for the forgiveness and blessings which they doubtless deserve.

#### Yandell-Whitt.

Jas. Milton Yandell and Miss Nora Gray Whitt were married Wednesday at the bride's home and in the presence of many friends.

Rev. Jas. F. Price, of this city, performed the ceremony.

The groom is a young man of many valuable qualities. He is a half-brother to W. B. Yandell and T. J. Yandell and he is a son of Jno. Yandell, Sr., who is one of the most prominent citizens of the county and a leading farmer of the Frances neighborhood where he resides. The groom is well known. He has gained much valuable knowledge from extensive travels in the West.

The bride is the daughter of Geo. Whitt, of Frances, who is one of our best citizens, a farmer, and who is noted for his successful truck gardening. She is accomplished, attractive and possesses a sweet disposition.

#### Yandell-Hill.

Dave Yandell and Miss Addie Hill, both of the Chapel Hill neighborhood, were married Wednesday at the home of the bride in the presence of a host of friends, Rev. A. J. Thomson officiating. They are very popular and their future bids fair to be a bright and happy one.

The groom who is a farmer, possesses many sterling qualities and is a son of T. J. Yandell, Sr., a leading citizen of the county.

The bride is the daughter of T. M. Hill who is also a farmer and one of our best citizens. She is attractive and beautiful and possesses many happy qualities.

# CLIFTONS.

#### Foster-Thompson.

August 2nd, 1903, Russell T. Foster and Miss Nora Thompson, both of Lola, were married at Elizabethtown, Ill. They returned to their respective homes and made no announcement of the affair. Time passed on and Mr. Foster engaged in the mercantile business, but after following it a few months he decided to go back to the farm where he at once began to build a residence and it is needless to say some thought that there would soon be a wedding. The wedding, however, failed to show up, but there was a greater surprise in store for the most alert devotees of match making. It came this way: The firm with which Mr. Foster was associated in business for some reason unknown to the writer, failed to satisfy certain claims against it by wholesale houses, hence the claims having been made while Mr. Foster was associated with the firm, the creditors looked him up and were proceeding to make good out of his personality whereupon he produced his marriage certificate and therefore under the laws of Kentucky he was exempt from the claims on his personality.

Saturday Mr. Foster claimed his bride of sixteen months and took her to his new home. Mr. Foster is a young man of many valuable qualities and will make a good husband for the wife that he has no doubt well chosen. He is the son of G. T. Foster who resides near Lola and is a brother of H. F. Foster, the barber here.

#### Berndt-Cannan.

Wm. H. Berndt, of North Dakota, and Miss Edna Cannan, of this city, were united in marriage Wednesday at the bride's home, Rev. J. R. McAfee, pastor of the Methodist church officiating. The contracting parties were unknown correspondents and until a few days ago when the groom arrived in the city they had not seen each other. The groom is a well-to-do farmer in his native state and the bride is the accomplished daughter of Geo. Cannan, a good citizen of our town.

#### Wilson-Hubbard.

License were issued Thanksgiving day for Henry Wilson to wed

Mrs. Ellie Hubbard, both of Creswell, Cumberland county. It is the first venture for the groom and the third for the bride.

#### Albert Weldon Dead.

Another prominent citizen of this county was taken away Sunday when the life of Albert Weldon passed. He died of consumption. For many years Mr. Weldon was engaged in the farming and the mercantile business at Tolu. For more than 20 years he sold goods at Tolu and was known as the pioneer merchant of that place. The last few years, however, Mr. Weldon had given his attention to his farming interests.

He owned a very fine farm on the river at Tolu besides two other good farms back in the country. It was just about three months ago that he moved his family to this place.

Mr. Weldon was an influential Democrat and his party had several times honored him by making him their standard bearer for the most important offices in the county.

His full name was Lorenzo Albert Weldon and he was born Nov. 26, 1847, and died Nov. 20, 1904. He just lacked six days being 57 years of age when he died.

He was twice married. His first wife was Miss Mary Champion. To this union was born three children all of whom survive. They are: W. S. Weldon, of Tolu, County Clerk; C. E. Weldon, and Mrs. C. R. Ball, of Salem. His second wife who survives him was Miss Ellen Beard. This union was blessed by the following children: Arba, wife of C. B. Hina who is associated with the Marion Hardware Co. at this place; Simpson, of this place; Charles, of Tolu, and Misses Lena and Sallie who resided with their parents.

Mr. Weldon was a devoted christian and belonged to the Baptist church. In his death the community loses a good neighbor, the county a good citizen and his church a faithful follower.

Any one wishing to per year make contract for cheap meat and choice meat, we will be glad to have call on us.

#### Killed in Coal Mines.

John Rice, 17 years of age and son of Mrs. Sid Rice, of Fredonia, was killed Saturday morning in the coal mines at Mt. Vernon, Ind. He was working at the bottom of the shaft with his brother. They were engaged near the elevator that was used for general hoisting purposes. The platform was resting on the bottom. Young Rice was in the act of stepping on the platform when it instantly ascended, crushing young Rice's body against the wall of the shaft.

Young Rice is well known here and is a half-brother to Mrs. J. M. Freeman, of this city.

His body was shipped to Fredonia where it was interred Monday

## STUDY IN GEOLOGY

### Action of Water Under Ground Relative to the Formation of Ore Veins.

#### LARGE KENTUCKY CAVERNS

The following article, relative to the formation of ore veins in our district, will be found readable and full of interest:

The movements of water have produced above ground some of the finest natural scenery which delights the eye of the traveler and explorer. But while the works of the great sculptor above ground are more conspicuous and sublime, some of its productions under ground are more magnificent and beautiful. Water also collects under ground and deposits in veins and pockets the treasures of silver and gold which men dig. Its subterranean labors have therefore a practical as well as an esthetic interest.

When the underlying rock of a country is a hard one, such as sandstone or granite, the water cannot dissolve it fast and most of it runs over the ground to the nearest rivers in brooks and streams. But when the underlying rock is limestone the water can dissolve it and it gradually cuts its way vertically a distance into the ground and flows thence to the rivers in subterranean channels. One of the most extensive limestone regions in the world underlies the State of Kentucky, and what is said of this section applies to all other regions having thick limestone formations—that only the largest streams appear upon the surface. Scattered all over the districts lying between these large streams are numerous shallow pits called "sink holes." Most of the rain which falls here runs into these holes instead of into small rivulets and brooks, as is usually the case. The opening is usually small, but if a man descends in it he finds it expanding into a large, irregular dome, perhaps fifty feet in diameter.

Strata of less soluble rock are interspersed among the strata of limestone. When the water reaches one of these layers of insoluble rock its progress downward is checked and it begins to cut through the limestone at one side of the dome, and thus the excavation of a horizontal chamber is begun. After having excavated a horizontal chamber the water may succeed in cutting its way through the hard rock at the bottom which before impeded its progress, and then it goes downward again until it comes again to a layer of hard rock, when it begins excavating another horizontal chamber.

There may thus be several horizontal passages leading off from one perpendicular dome. At the bottom of the dome will always be found several small bits of flint. They are the water's excavating tools. It drives them constantly against the soft limestone, as the miner drives his pick into the coal, and without their aid, tiny as they are, it would be much more helpless than the miner without his pick. The Indians used to go down into the "sink holes" for these flints, which they used as arrow heads.

The steady action of the water, armed with its flints, slowly enlarges all the channels, both perpendicular and horizontal, until they become immense caverns, and the foundations of the country become more thoroughly honeycombed than are the foundations of a great city with all its underground wires, pneumatic tubes, subways, and sewers. The horizontal galleries always terminate in the bank of a large stream or a river. They are, in fact, underground channels of brooks. There is a region 8,000 miles square miles under Kentucky which is but a gigantic network of caverns. The domes are seen, when lighted up with a torch, to be sculptured fantastically, beautifully, grandly. Handsome columns, delicate flowers, colors as variegated as those of the rainbow adorn their walls. The lateral galleries are scarcely less magnificent. A man may walk for days in the Mammoth cave through ornately carved and splendidly decorated chambers more than thirty feet high, more than fifty wide, and miles in length. Every drop of water that seeps through the ceilings leaves upon them a tiny deposit of lime. Every drop that falls to the floor leaves there a tiny deposit of lime. The tiny deposits of lime upon the ceilings grow downward into the large stalactites, those upon the floor upward into the great stalagmites, which are among the finest ornaments of the caverns. In course of time stalactites and stalagmites meet and form pillars. They may grow until they fill up the whole passage.

The caverns are inhabited by several species of animals, all of which are blind. Sight being useless to them in a place where light never penetrated, thrifty nature took their eyes away. Indians used to flee to the caverns to escape their enemies, and the bodies of several of them, dried like mummies and surrounded by all their weapons of war and of the chase, have been found. Most of the saltpetre used by Americans in making gun-powder for the war of 1812 against Great Britain was got in the caves of Kentucky. There are similar caverns in Europe which are believed to be millions of years old.

Another effect of the action of water under ground has been spoken of—viz: the collection and deposit

of valuable minerals. It occasionally happens, from different causes, that a gash or rent is made through a system of stratified rock. It may be 10,000 feet from top to bottom and only a few feet wide. Some sea water is always imprisoned in rocks when they are made and buried at great depths below the surface. This former sea water is heated to great intensity by the heat which always exists at a considerable distance below the earth's surface. The salt and gases it contains and its extreme temperature give it a solvent power so great that it takes up in solution part of every substance it touches. When a rent takes place in the rock this water starts upward through it with a load of minerals. As it ascends it cools, and as it cools it becomes less and less capable of holding minerals in suspension. It therefore deposits them on the walls of its outlet until at last the outlet is choked up and becomes a vein. Of course, all the veins formed this way do not contain silver or gold, but most veins of silver and gold are formed in this way.

When the water at last comes to the surface it appears as a hot spring, and it may be that every one of the thousands of hot springs in the world is making a vein or leak of some kind. Sometimes the water cuts out a cavern in the earth and makes in it a large, valuable mineral deposit. Sometimes it filters through porous rock and leaves minerals in it. The Comstock lode, which has produced more silver than any other mine in this country, and more gold than any other in the world, is in the route by which hot springs make their way to the surface, and the miners have incessantly to fight water which would quickly cook them to death if they fell into it.

#### Canteen Gone Forever.

Rev. E. C. Dinwiddie, of Washington, D. C., superintendent of the legislative department of the American Anti-Saloon League, in an address before the league recently said that the canteen will remain abolished in the army. He said that the government will be asked for additional appropriations for substitutes for the canteen, such as reading and recreation rooms. He declared that an attempt will be made to modify the interstate law so that States will be given jurisdiction over express companies in the matter of liquor shipments.

## NO CHANCE

For Democracy to Win in 1908 Says  
Col. Henry Watterson.

It is not often that we can quote from Mr. Watterson with approval and pleasure, but in an interview, published just before his departure for Europe, Mr. Watterson said:

I can see neither hope nor future for the Democratic party until something comes along to break up the Republican party. The Democrats were in power for about half a century until the slavery question split them. The Republican party is now so strongly entrenched that it cannot be dislodged except by a great split in the party itself or some great national convulsion like the Civil war. The talk of possible Democratic victory in 1908 is absurd.

That means that so-called allegiance to a mere party name will avail nothing. The future holds new issues, or, to put it in the words of Lowell, "New times demand new measures and new men." Let the South cast off the shackles of blind party allegiance, let it refuse longer to be bound to the body of this living death, let it declare that the Southern vote belongs to no man, to no party, but that it has to be won by service which the whole country approves, won in any event only after a full discussion and a fair vote.

The Populists are strong in the South. The Cleveland Democracy was once strong. The Republicans have not grown because they have not been led by their strongest men.

New for the future, a future in which argument and reason shall prevail, in which the South, doing duty to all men, is prepared to join its own cause before an enlightened nation.

Democracy committed in the past, the Democratic party have been weak enough to destroy it, and they have done much to retard Southern progress.

New for a new day.

## REPUDIATES THE CATHOLIC CHURCH

Founder of Roman Catholic University at Washington Recants.

Mary Wendoline Caldwell to whom the Catholic University at Washington owes its foundation, has repudiated that creed. She says:

It is true that I have left the Roman Catholic church. Since I have been living in Europe my eyes have been opened to what that church really is, and to its anything but sanctity.

But the trouble goes much further back than this. Being naturally religious, my imagination was early caught by the idea of doing something to lift the church from the low position which it occupies in America, so I thought of a university or higher school where its clergy could be educated, and if possible, refined. Of course, in this I was merely influenced by Bishop Spalding, of Peoria, who represented it to me as one of the greatest works of the day. When I was twenty-one I turned over to that purpose one-third of my fortune to that purpose. But for years I have been trying to rid myself of the sad, overwhelming influence of the church. At last my honest Protestant blood has asserted itself, and I now forever repudiate and cast off the yoke of Rome.

## School Sprigs

How is your soul, fellow teacher? I know how your pocket book is.

The way of the school teacher, like that of the transgressor, is hard, when the State don't plain its tardiness.

Two impossible things—to make a specialty of country school teaching and make a living out of it.

The country school teacher's pocket book has gone into "flat-rundey."

The legislature did a noble thing in the extension of the school term to six months.

One month's extension of the school term ought to have been followed by a similar extension of the teacher's pocket book.

Reforms come slowly, but they come. Now that the law makers are "in time" to the needs of the schools, let's keep them "in time" until the teachers can teach for a living without a side line supplement.

"There is a tide in the affairs of men," but it seems to tide itself the other way from the teacher.

But why not cases after circumstances the same as circumstances alter cases? Some dare so to do.

Besides, we should be at least willing to sacrifice a bit in order to set the six months term machine a-going.

It will not always be thus, else the "thousness" of necessity will make a dearthness of school teachers in Kentucky.

Many men and women have the courage to keep quiet when hit, however hard—except in the pocket book.

A better system of popular education would no doubt have prevented Edyville having the glory of a State prison.

A country school teacher with a hundred dollar doctor bill to harass him by day and haunt him by night would, under the present situation, have to pay it in the legal tender of worry.

A problem: With six months' work on five month's pay for twelve months' living, how much can go to the savings' bank?

Longer terms and better pay will make better efficiency on the part of the teachers; on the part of the schools a better crop of intelligence; on the part of the State a better citizenship; on the part of the nation a better civilization.

### Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicine, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility."

This is what H. F. Bass, of Fremont, N. C., writes, July 5th, at R. F. Haynes', Druggist.

Don't fail to try the Maple Syrup made of Canada sap at Black's grocery.

## SOUTHERN

### DEMOCRATS

Should Act Independently in Political Matters in Future.

Washington, Nov. 17.—"To pit the Northern Democracy against the Republican party, the south to cast its vote independently in the electoral college."

A movement looking to this end is already under discussion by several Southern Democrats, who, if the plan receives any encouragement, will urge its ratification by the people of the southern states. How far-reaching it will be, whether it will ever amount to what its advocates hope, is too far ahead to say, but it is known that plans are on foot for serious consideration of the future course of the Southern Democracy in the national councils.

### Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds and even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Uragg, of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by R. F. Haynes, druggist. Price 50c, and \$1.00. Trial bottles free.

### Author of "Ben Hur" Dying.

A well-known Minnesota editor and business man in the Minneapolis Tribune says he had an interview recently with Gen. Lew Wallace, the author of "Ben Hur," during which Gen. Wallace confessed that the doctors have given him only three weeks longer to live. He has a stomach trouble and is slowly starving to death. He is writing his memoirs in a race against death.

#### ANNOUNCEMENTS

##### FOR SHERIFF

DUVALL—We are authorized to an-  
nounce Alonzo J. Duvall a candidate  
for the office of Sheriff of Crittenden  
county, subject to the action of the  
Republican party. Election 1905.

FLANARY—We are authorized to an-  
nounce J. F. Flanary a candidate for  
the office of Sheriff of Crittenden  
county, subject to the action of the  
Republican party. Election 1905.

The new Commercial Club has at  
its head officers who are all good  
men and well suited for the places  
they are to fill. The purpose of  
this club is to build up the town  
and enhance the value of property  
in this community. The interests  
of both town and county will be  
considered, capital will be invited  
to this field, the improvement of  
farms and roads will be agitated,  
enterprise will be invited to come  
here, and thus laborers will find  
more employment, and a better  
market for our farm products will  
be obtained. No enterprise, no  
improvement will be agitated that  
is not sensible and practical, and  
that is not of general interest to all.  
Lawyers, doctors, farmers, mer-  
chants, teachers, mining men and  
capitalists are joined together for  
one common end—to secure the  
GREATEST ADVENT OF GOOD TO THE  
GREATEST NUMBER OF PEOPLE IN THIS  
COMMUNITY. Bear in mind that the  
Marion Commercial Club is your  
friend and let your influence aid its  
efforts.

As the conditions surrounding  
the crossing of the railroad near  
the Marion Milling Company's  
plant are at present, the lamentable  
accident that occurred there Satur-  
day may sooner or later be called  
to mind by a similar one at the  
same place. That this crossing is  
a most dangerous one, no one will  
gainsay, and that there is a proper  
way to eliminate the danger that  
now lurks there can readily be seen.  
The city council of Marion should  
invite a proper official of the I. C.  
railroad to come here and with  
them view the conditions surround-  
ing this crossing and adopt some  
method that will eliminate the dan-  
ger, thus insuring mutual protec-  
tion to the company and to the  
lives and property of our citizens.  
A crossing like this one is but  
enough anywhere through the coun-  
try, but when found within the  
corporate limits of a city or town,  
and especially when it is the most  
public crossing, as in this case, it  
should not be tolerated by the citi-

zens of the town without proper  
safeguards. What we are here say-  
ing is not in the spirit of unfriendly  
criticism, but for the protection of  
our citizens, as well as the best  
interests of the railroad company  
concerned. That the deplorable  
accident of Saturday was only one  
of three or four that occurred at  
the same place and under similar  
conditions within the last three  
years that might have been even as  
horrible as this one is remembered  
by our citizens. Accidents such as  
this are calculated to be expensive  
to some one, whereas that cost  
might employ a watchman for the  
next ten years and possibly the  
protection thus afforded to life and  
property would more than offset  
the cost of maintaining the watch  
for from thirty to fifty years longer.

The election is now over and just  
for curiosity's sake will some one  
please let the public know the size  
of the "rake-off" by the Kentucky  
grafters?—Polk's Register.

The Register is a Democratic  
newspaper but not being in the  
harness with the Buckham wing of  
Democracy which dominates the  
party in Kentucky, it calls certain  
manipulators of the Democratic  
party in this state "grafters." And  
Fry Woodson, proprietor of the  
Owensboro Messenger and who as  
Secretary of the National Commit-  
tee, was expected to take care of  
Kentucky receives his share of the  
criticisms that are going the rounds.  
He is justly criticized for the assur-  
ances of Democratic success in cer-  
tain quarters of the land, which he  
gave out before the election and  
possibly he will have to carry his  
share of the blame for the way the  
campaign money was spent in the  
State. But now the Tammany  
Times comes to the front with  
startling accusations against the  
manager of the Democratic Nation-  
al campaign. It says the money  
was stolen. It says it will prove  
its charges. This may throw some  
light on the Kentucky situation and  
we will await the developments.

The Courier-Journal's continued  
persecution of Lieut. Gov. Thorne,  
for his mistake in the Buchter par-  
don, which he himself candidly ad-  
mitted, finds no approval in this  
end of the State. Many a wretch  
as guilty as Buchter has been  
turned loose by farcical trials in  
the courts of the State, and why  
single out Thorne to bend odium  
and abuse upon him?—Kentuckian.

And parallel cases by pardon—  
Balogh's case, for instance.

The Moretti statue of Goebel sub-  
mitted at Lexington recently, was  
rejected by the Monument Commis-  
sion on the ground that it was not  
true to life. The artist has our  
sympathy.

The report that Lieut. Gov.  
Thorne's appearance at Powe Val-  
ley recently when the confederate  
soldier's infirmary was accepted by  
the State, was hissed, is not sus-  
tained.

Walter Wellman in the Chicago  
Record-Herald says that Grey  
Woodson is only a joke.

### J. F. FLANARY

Announces as a Candidate for Sheriff  
of Crittenden County.

Elsewhere in this issue of the  
Record we present to our readers  
the announcement of James Fidel-  
lar Flanary, a candidate for the  
office of sheriff, subject to the ac-  
tion of the Republican party. The  
subject of this announcement was  
born and reared in this county and  
in precinct No. 1. His father be-  
fore him was a Republican and he  
has been a Republican all his life.  
Left at an early age to care for a  
large family, he has had no easy  
task.

He made the race for Governor at  
the time that A. J. Pickens made  
the race for judge which was in  
1882. Mr. Flanary and Mr. Pick-  
ens were the only two on the ticket  
that were elected, as the county at  
that time was Democratic. He  
was re-elected to the same office in  
1886 and in 1891 was elected assessor  
and served the short term  
which was three years.

Mr. Flanary has been deputy  
sheriff now nearly two years under  
J. W. Lamb and we doubt not that  
if he should receive the nomination  
and be elected he would bring to  
the office much valuable experience.  
If he is the choice of the Republi-  
can convention he will certainly  
receive the hearty and earnest sup-  
port of this paper.

We bespeak four careful consid-  
eration.

### KILLED BY A TRAIN

An Old and Respected Negro Meets  
an Unlucky Death.

"Uncle" Joe W. Hughes, tool  
who owned a good farm about five  
miles north of the city, where he  
resided, was horribly crushed and  
ground to pieces here Saturday be-  
neath the wheels of the locomotive  
pulling south bound passenger train  
No. 331, due here at 11:20, but  
which was running ten minutes  
behind time. The accident occurred  
at the crossing near the Marion  
Milling Company's roller-mills.  
He had gone to the mill in a wagon  
and after fulfilling his errand, he  
started out to drive toward the busi-  
ness portion of the city about the  
time the belated train was due.

It was characteristic of the old fel-  
low to fear the danger of being run  
over by a train. Looking toward  
the depot, south, and as far as he  
could around the curve to the  
north, which was obscured by the  
mill and box cars that stood on the  
switch near by, he thought his  
coat clear. But when he turned  
again to look down the track to  
the north he perceived his danger,  
for the train was running right into  
him. Dropping the lines, he ap-  
peared to try to jump from the  
wagon, but just at that moment the  
engine struck the wagon broad-side,  
tilting it over, destroying the old  
darkey's base, from which he

dropped to the track in a second  
like so much lead. His right leg  
was cut entirely off near the knee,  
the left leg and left hand being  
ground to a pulp. The body was  
mangled and the head was crushed.  
The train stopped over this form of  
humanity, and the body was re-  
moved from under the baggage car  
by spectators that were near.  
The old darkey was never uncon-  
scious, but uttered subdued groans  
until life passed out about five  
minutes later.

The team was not injured in any  
way and did not even become  
frightened.

"Uncle" Joe was the most influ-  
ential and highly respected colored  
man in the county. He was 63  
years of age, had seen service in  
the civil war, and at the time of  
his untimely death was in good  
health, hearty and active for a man  
of his age. He raised a good fam-  
ily of six children, who, with the  
mother, survive him. His oldest  
son, Tony, resides at Dover, Okla-  
homa, where he owns a farm and  
teaches school. Robt. and Ray-  
mond resided with the parents, Ada  
is teaching in Webster county,  
Americus is attending school at  
Frankfort and Israel is employed at  
Paris, Ky. All the children came

home to attend the funeral, which  
took place Monday afternoon at the  
Hughes grave yard near Al Dean's.  
"Uncle" Joe was worth \$2,500  
or \$3,000, was a good financier and  
thoroughly reliable, his word being  
as good as his bond. He was well  
known by all the business men of  
this city who appreciated his trade,  
and he was well liked and trusted  
by all his neighbors, white or  
black. By his death the county  
lost a good citizen, his race a mem-  
ber who elevated it, and his family  
a progressive and mindful husband  
and father.

Roosevelt's plurality is now  
2,000,000.

It is said that Pope Pius X is  
suffering from heart trouble.

Editor Henry Watterson, of the  
Courier Journal, has gone to Eu-  
rope to spend about six months  
abroad. He will spend the winter  
in Italy.

"The South is going to find that  
Roosevelt is not the enemy of that  
section, nor has he any intention  
of stirring up the race question,"  
is the statement made by a close  
friend of President Roosevelt who  
says that the President is half a  
Georgian himself.

Illinois was so disgusted with De-  
mocracy that, after giving Roose-  
velt a majority of 301,667, she gave  
Belts 100,000 and Swallow 23,000  
votes.—Evening Post.

The Republican wave struck Hous-  
ahulu. According to returns, Frank  
Jonah K. Kalamannale has been  
re-elected delegate to Congress by a  
majority of over 200 over both  
opponents. Total vote polled  
13,000.

The Court of Appeals has decid-  
ed that a County Clerk gives a cer-  
tificate of acknowledgment to a deed  
to property, and the deed be more  
correct, he is responsible, and the  
amount involved can be recovered  
from him or his bondsmen.

#### CANDIDATES SHOULD ANNOUNCE

If you are a candidate for any of  
the county offices you should make  
your announcement now and let  
yourself before the people. It will  
cost you only \$5.00 to announce  
and print your card in the Record  
until the convention. This is  
always payable in advance and  
would be no less any time than  
now.

Roosevelt's wonderful plurality  
and the election of a Democratic  
governor in Massachusetts was due  
to publicity. Put yourself before  
the public.

### Ten Conversions.

The revival at the Methodist church still continues and the interest in the meeting increases. At this writing from 8 to 10 persons have been converted. The pastor, Rev. J. R. McAfee, is being assisted by presiding Elder Virgil Elgin.

### Struck by a Scanlin.

Returning home from court on Thursday, Billie Tackwell was hit by a scanlin in the hands of Shem Watson. It is stated by Tackwell that his son, Lawrence, was tried that day for carrying concealed and deadly weapons and was cleared, and that Della Watson was chief prosecuting witness. He also says that Watson was prejudiced against young Tackwell and had a hand in him, and that he (Tackwell) received the blow trying to protect his son.

GEN. JOHN BLACK

Will Probably be Next Pension Commission.

A native of Mississippi for commissioner of pensions is believed to have been decided upon by President Roosevelt. The name of the permanent successor of Eugene F. Ware as pension commissioner will probably be Gen. John C. Black, president of the civil service commission and commander of the Grand Army of the Republic. Gen. Black was born in Lexington, Miss., in 1839, and in 1840 removed to Illinois. He served in the federal army, and from 1893 to 1895 served in congress, representing one of the Chicago districts. He is a Democrat and served under Cleveland as commissioner of pensions.

The immediate successor of Mr. Ware will be Jas. L. Davenport, of New Hampshire, deputy commissioner. His tenure will last until March 1, 1905, when Gen. Black will be named as the permanent commissioner.

Commissioner Ware has tendered his resignation to the president and it was accepted to take effect Jan. 1.

SILVER-TONGUED BRECKENRIDGE

Died From the Effects of a Paralytic Stroke Last Saturday Night.

Col. William Campbell Preston Breckinridge died at 11:40 o'clock last Saturday night from a stroke of paralysis sustained the Wednesday previous. He died at Lexington, and the end came peacefully. He had been gradually sinking for twenty-four hours, and for that length of time the case had been known to be hopeless.

W. C. P. Breckinridge was born August 26, 1837, near Baltimore, Md., he being a son of Rev. and Mrs. Robert Jefferson Breckinridge. He graduated at Center college, Danville, and the law school of Louisville, receiving his diploma at the age of twenty years. Beginning the practice of law in Lexington, he continued until September, 1860, when he joined the confederate army, with the rank of captain, under Gen. John H. Morgan, and later rose to the rank of colonel of the 19th Kentucky cavalry and the command of a cavalry brigade. He was the youngest colonel in the confederate army and perhaps saw the longest and most arduous service of any officer in the army.

My Breath.

Shortness of Breath Is One of the Commonest Signs of Heart Disease.

Notwithstanding what many physicians say, heart disease can be cured.

Dr. Miles' New Heart Cure has permanently restored to health many thousands who had found no relief in the medicines (allopathic or homoeopathic) of regular practicing physicians.

It has proved itself unique in the history of medicine, by being so uniformly successful in curing those diseases.

Nearly always, one of the first signs of trouble is shortness of breath. Whether it comes as a result of walking or running up stairs, or of other exercise, if the heart is unable to meet this extra demand upon its pumping powers—there is something wrong with it.

The very best thing you can do, is to take Dr. Miles' New Heart Cure. It will go to the foundation of the trouble, and make a permanent cure by strengthening and renewing the nerves.

"I know that Dr. Miles' New Heart Cure is a great remedy. For a number of years I suffered from shortness of breath, smothering spells, and pains in my left side. For months at a time I would be unable to lie on my left side, and if I lay flat on my back would nearly smother. A friend advised using Dr. Miles' New Heart Cure, which I did with good results. I began to improve at once, and after taking several bottles of the heart cure the pains in my side and other symptoms vanished. I am now entirely well. All those dreadful smothering spells are a thing of the past."—F. P. DICKER, Middletown, O.

If the first bottle does not help you, the drug will refund your money.

DEMOCRATIC HEADQUARTERS.

A Chicago dispatch says: Mr. Taggart announces that the national headquarters of the Democratic party will be removed to French Lick Springs in Indiana. One familiar with the law of averages has calculated that the chance of winning at French Lick is one in a hundred. Wherefore, Democratic prospects there will be improved about a thousand per cent over what they were in the recent election.—Pantagraph.

DEVELOPE THE SOUTH.

Recognizing the fact that the development in the South has been greater the last eight years than in any previous 20 years, the Manufacturers' Record published at Baltimore has the following to say on the results of the election:

Once more this country has rendered its emphatic verdict against free-trade agitation. By an overwhelming vote the people of the country have shown their disapproval of every tendency toward free trade. If, in some campaign all other questions could be eliminated except that of free trade or protection, this country would register such a vote for protection as no party ever received. In this election other causes contributed to the popular verdict, but the Manufacturers' Record believes that the chief reason was the tariff. With this so definitely settled, with universal prosperity among the farmers of all sections, with a marked improvement in business for the last few months, we are now in shape to enter upon the greatest industrial activity which our country has ever seen.

Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age, Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect Pill 25c at R. F. HAYNES' drug store.

## THE SUNDAY BIBLE SCHOOL

Lesson in the International Series  
for November 27, 1904—"World's  
Temperance Lesson."

(Prepared by the "Highway and Byway" Preacher.)

(Copyright, 1904, by J. M. Edson.)  
LESSON TEXT.—Isaiah 28:1-3; memory verses, 2, 4. Read the whole chapter.  
GOLDEN TEXT.—"They also have erred through wine, and through strong drink are out of the way."—Isaiah 28:7.  
TIME.—25 min.  
PLACE.—Jerusalem.

### Introductory Note.

The verses of the lesson are the beginning of a prophecy which includes chapters 28-33, and was spoken concerning the destruction of Ephraim to whom which the northern kingdom of Israel was known, and the impious and folly of Judah, the chapter from which our lesson is taken refers to the time about the sixth year of Hezekiah, king of Judah, and just prior to the final captivity of Israel, in the reign of Hosiah. The "Crown of Pride," v. 1, refers to Samaria, the capital of Ephraim. The "Raillure," v. 6, refers to Judah, which was enjoying the righteous reign of Hezekiah. The "they," in v. 7, refers to certain in Judah who, too, have erred through wine. Verses 9 and 10 give the appalling results of the darkness to Israel's warnings, and in verse 11-13 we have the prophet's answer thereto.

### The Lesson Outline.

- THEME.—The Great Destroyer.  
I.—The Doom of the Drunkard.—vs. 1-4.  
(1) Intoxicated—"Glorious beauty in a fading flower."—v. 1.  
(2) Overcome—"Cast down to the earth."—"trodden under foot"—vs. 2, 3.  
(3) Destroyed—"A fading flower."—"Hearty fruit that heretofore."—v. 4.  
II.—The Reward of Righteousness.—vs. 5, 6.  
(1) Health and healing—"Crown of glory."—"Garden of beauty."—v. 5.  
(2) Wisdom—"Light of judgment."—v. 6.  
(3) Strength—"Strength to them that turn the battle to the gate."—v. 6.  
III.—The Ways of the Drunkard.—vs. 7-11.  
(1) Downward—"Are out of the way."—v. 7.  
(2) Uncontrolled Appetites—"Swallowed up of wine."—v. 7.  
(3) Incapacitated—"Err in vision."—"stumble in judgment."—v. 7.  
(4) Inebriated—"Vomit and flithiness."—v. 9.  
(5) Proud—"Whom shall he teach knowledge?" or, rather, shall the prophet teach us knowledge?—v. 9.  
(6) Profane—"Vase in a sort of mockery of the prophet's message."—v. 10.  
IV.—God's Final Message.—vs. 11-13.  
(1) Warning—"With another tongue will he speak."—v. 11. Punishment by a heathen nation, whose tongue they failed to understand.  
(2) The Night Was Pointed Out—"This is the last."—"This is the refreshment."—v. 12.  
(3) Simplicity of the Message.—v. 13.

Comparing Scripture with Scripture.  
I. The Doom of the Drunkard.—(1) Intoxicated, v. 1.—Isaiah gives us here a glimpse of a once glorious nation that is being besotted and robbed of every trace of beauty and glory. Ah, how strong drink strips of everything; home, wife, children, friends, position, manhood. See it on every hand. The great evil robber in the world today is Strong Drink. It robs nations and individuals.

(2) Overcome, vs. 2, 3.—Israel was just on the brink of destruction. "A mighty and a strong one" in the person of Assyria was soon to sweep down and overcome the nation made weak and dissolute through drink. Samaria, that beautiful city, the pride of the nation, was to be cast down. The man who puts his hand to the cup has given himself into the hands of an enemy that will finally overcome him.

(3) Destroyed, v. 4.—Read 2 Kings 17:1-23 for the story of how utterly Israel was destroyed. The figure of the fading flower tells of the departed glory of Israel, and the figure of the early fruit that was quickly eaten expressed the haste and eagerness with which the Assyrian foe eagerly consumed the cities and land of Israel. Strong drink has plunged many a nation to destruction. And it claims its victims by the hundreds of thousands every year.—Prov. 23:32.

II. The Reward of Righteousness.  
(1) Health and beauty, v. 5. (2) Wisdom. (3) Strength, v. 6.—What a picture this is of one who is temperate in all things. (1) Cor. 9:25. Daniel offers striking example of the value of total abstinence. Note the connection between the 3rd and 13th verses of the first chapter of Daniel.

III. The Ways of the Drunkard. (1) Downward. How swift and sure it is. (2) Uncontrolled Appetites. Everything is sacrificed to satisfy the awful cravings. (3) Incapacitated. The man who indulges in strong drink is physically and morally disqualified to fill any position of trust or responsibility. (4) Unclean. To see the drunkard in his helpless, maudlin moments is to understand all that this implies. (5) Proud. This is one of the drunkard's strong characteristics. (6) Profane. Strong drink releases the tongue which sends forth a flood of foul-mouthed oaths, and unclean talk. Ah, how Isaiah in these verses has outlined the course of the drunkard.—Prov. 23:29-32.

IV.—God's Final Message. (1) Warning. Drunkards are barred from heaven. (1 Cor. 6:10, Gal. 5:21) And in this life they sink below the level of the brute creation. (2) The right way pointed out. The drinker deludes himself that in his cups he finds rest and refreshing, but God points the only way to these. (Isa. 56:2.) (3) Simplicity of the Message. God's message to the needy, wayward soul of man is always simple. The drunkard needs not the gold cure or any other cure which man can invent. He needs the "blood cure." Jesus can save where all else fails. Heb. 9:26.

### The Golden Text.

"They also have erred through wine, and through strong drink are out of the way."—"Wine!"—"Strong Drink!" The Devil's own! Fair Wine comes with her enticements. She makes captive the appetite and leads it away upon error's pathway. The way seems pleasant, the company delightful, the prospect alluring. But ere long the fair temptress introduces her friend Giant Strong Drink. He appears like a jolly good fellow, and soon he and Mr. Soul and body are fast friends. For friendship's sake the will is put in chains and ambition, love, honor, everything, is given up.

## In Memory of JOSE GUESS By Rev. J. W. Bigham

It was in 1850 in Crittenden county, Kentucky, I first knew J. W. Guess. We were boys together, neighbor boys, "On Hurricane Creek," a new settlement in the woods, made by his brother-in-law S. F. Crider, now deceased—was fast developing under their sturdy strokes into a comfortable yet humble home. We rode in the farm wagon together hauling corn; we helped at the log rollings in the spring time, and piled brush together. We wandered through the deep woods, hunting, and to the soft moonlight we often caught the "possum" the faithful dog had "treed," and now and then revealed the deadly struggle between the good "coon-dog" and his plucky game. We've strolled together along the wooded banks of "Old Hurricane Creek" and angled for the speckled beauties that dwelt among the rocks and gleamed in the sunbline amid the crystal waters. And we've felt the real anguish of good-byes spoken when the gathering shadows were shutting out the light and closing up the day and our tireless delights; and we must go home, with plans ready arranged for the next day, and youthful hopes buoyant in endless anticipation of the good times coming, when we should be together again. The humble log meeting house, "Old Hurricane" that stood on the hill, where we met at the monthly meeting day, and listened to the earnest sermons of Jno. B. Perry, of precious memory—those dear old days, "how sweet their memory still!"—and the old-time songs—how they rang, sweet and clear, upon quiet wood and vale, as nearing the place of worship, the belated youth, when first the melody of those songs reached his ears, felt the strange, softening influence upon a gliding heart. Was God not in that music and in those prayers? While heartfelt amen, from devout worshippers, evinced the character of devotion to be "In Spirit and in truth." Harry Minner, Ingram Lucas, Arthur Love, Alexander Coleman, Wesley Minner and other saints, all now "gone on before," addressed the throne of Grace, and holy fire from above fell on them that heard the word. Learner B. Davidson was presiding elder and later on we had such pastors as Tom Moore, P. S. Hardison and H. A. Unidiff. Is it any wonder that our young hearts should hunger and thirst for the water of life under these ministries of light and love? Bro. Guess yielded to God along these years and so did I. How sweet the earlier joys of Christian communion we had together in the simple devotion of those blessed days, long before we knew or ever felt the ruder, coarser, touch of the cold and selfish world. We loved each other as we loved all mankind, and yielded a childlike obedience to God and his church, and of course there came into our simple souls, the holy affection for the old church, the lovely "hill," a big clear old woods, as well as veneration and filial love for all those dear old saints of God, as there poured into our entire being the blessed water of life, a well of joy, and heavenly love and peace. I remember how helpful "Jose" was to me in my first attempts to be a Christian. We prayed together under the trees alone, where no eye, but God's, could see. We sang together those dear old hymns and cheered each other to heroic devotion to God and duty. How brief those blessed days now seem, and yet what riches of holy help they've been to me. Could they have continued I should not have lost much I now lament.

Strange that more than a quarter of a century should pass before we again should associate intimately and familiarly as of yore. Placed in charge of the District five years ago I returned to the county and resided in Marion, Ky., and Kentucky. I first knew J. W. Guess. We were boys together, neighbor boys, "On Hurricane Creek," a new settlement in the woods, made by his brother-in-law S. F. Crider, now deceased—was fast developing under their sturdy strokes into a comfortable yet humble home. Many tender and endearing memories come over me while I think of my brother and life long friend. Every thing dear to him must be sacred to me. The Lord keep his darlings. I suffer as I remember that we shall not meet again beneath the skies, but, from my far off home in Florida, I lay some flowers of affection on his grave. He had his faults, no doubt, but I never saw a man that could name them. He touched no man but a blessing followed to him he touched. If he had an enemy that enemy was provoked by his superior life. If he had need of friends it was because all who knew him believed he had enough and to spare. "The Lord was his Shepherd; he did not want." Adieu, "Jose," dear old friend. I shall be with you after awhile.

## CUPID'S CAPERS

### Culminate in a Thrilling Romance at Blackford.

Dr. Crumpton, of Paragould, Ark., and Miss Bertha Carnahan, of Blackford, eloped to Evansville last Saturday and were married. They had never met until the evening before, but had been in correspondence for a year. And thereby hangs a tale.

The pretty girl had visited a married sister at Paragould, Ark., and as she was leaving for home, Crumpton saw her passing along the street. He was smitten, and at once his thoughts turned to "If you lack a me lak I lak-a-yeon," whereupon he sought the sister of his innamorata, and through her correspondence was begun.

There resides in the little city of Blackford a young man with heart as true as steel who was also smitten with the charms of the pretty Miss Carnahan, and is said to have sought the hand of the young lady with great vehemence. However, we will give his version of the affair, which he imparted to a representative of THE RECORD.

Everything was plain sailing with the young couple at Blackford, and it looked as though the Arkansas man "was not in it" until our gallant son of old Kentucky hid himself away to the street fair at Sturgis last summer and there met a belle of that city who was fair of face and form and had accomplishments too numerous to mention. He at once began paying her attentions, and ere long a report was circulated to the effect that their friendship had grown in strength until it had

reached a matrimonial culmination. Upon hearing this, Miss Carnahan dispatched a hurry-up letter to her Arkansas suitor, which brought him to her double-quick. An elopement was planned, and Evansville was selected as the Greta Green.

D. H. Carnahan, father of the young lady, grew very wrath when he learned his daughter's intention and asked her former sweetheart to use his influence toward breaking the match, but the "die was cast," and the couple who were almost strangers went to Evansville, where Dr. Whittle perfected their truth, after which they left for Paragould via Blackford in search of parental forgiveness, which no doubt they will receive in addition to their new found bliss.

### Storm on Atlantic Coast.

The Atlantic coast has been swept by a severe storm which visited Washington, Saratoga and other Eastern cities, and snow fell in Georgia, South Carolina, Tennessee and other southern states. A two-master schooner was driven ashore at Torpedu Cove, Mass., and all on board were probably lost.
